DIRECTORS' REPORT

The directors submit their report and the audited financial statements of JD Capital PLC ("the Company") and the audited consolidated financial statements of the Company and its subsidiaries (together, "the Group") for the year ended 31 December 2022.

Principal activity

The Company's principal activity is to act as a holding company and to provide financing to its subsidiaries.

The Group is engaged in the business of providing aluminium, steel, wrought iron, large scale glass formats, and stainless-steel works, as well as the construction of steel structures. The Group also holds an investment property.

Performance review

During the year under review, the Group made a profit before tax of €417,526 (2021: €468,117). For the same year, the Company made a loss before tax of €237,189 (2021: €3,649).

As at 31 December 2022, the Group's total assets amounted to €57,486,130 (2021: €47,280,206) and net assets amounted to €16,805,112 (2021: €16,586,795).

As at 31 December 2022, the Company's total assets amounted to €21,212,341 (2021: €12,644,562) and net assets amounted to €7,258,642 (2021: €7,495,632).

During 2022, a war between Ukraine & Russia was registered. The Company has not made any sales overseas and it does not have any contracts for raw materials in Ukraine or Russia. Furthermore, none of the Company's clients, which are Malta-based have suspended their projects or cancelled orders. Meanwhile, management has assessed that the war has resulted in an increase in raw material prices around Europe, however this has not left any outstanding impact on the financial statements nor any outstanding uncertainties with respect to events or conditions which may impact the Company unfavourably as at the reporting period or subsequently as a result of a prolonged war.

Despite these significant challenges, coupled with a decrease in revenue of 27% when compared to the previous year, the Group still managed to obtain positive results as it was able to: (1) increase its profit before tax as a percentage over revenue from 2.9% to 3.5%, (2) the Group's total assets have increased to a total value of €57.5m from €47.3m when compared to 2021. This represents an increase of 21.6%, and (3) it has drastically improved its cashflow position as it ended the financial year with a positive cash and cash equivalents balance of €882,676 when compared with a negative position of €140,054 in 2021.

The Group has a clear financial framework and remains highly disciplined and focused on its cash-flows and on increasing its working capital to ensure that it can continue with its targeted investments in order to remain competitive and relevant in the short to medium term thus, securing the Group's future.

The board of directors is confident that the Group's disciplined and focused approach, together with remaining sensitive to industry trends and being responsive to investment opportunities, will ensure that the Group will remain at the forefront of the construction industry and thus remain relevant in the short to medium term.

DIRECTORS' REPORT - continued

Results and dividends

The results for the year are set out in the statements of comprehensive income on page 12. During the year ended 31 December 2022, the directors do not recommend the payment of a dividend (2021: NIL).

Principal risks and uncertainties

The Group is mainly dependent on the operations of one of its subsidiaries, JD Operations Limited, its main line of business being the installation and manufacture of aluminium apertures, steel structures and large-scale glass formats. The full list of key risks listed in the base prospectus are still applicable. To mitigate such risk the Company is diversifying its business lines as per the Base Prospectus issued to the public on 3rd October 2022.

Apart from the above, the Group is subject to various other risks such as market, economic, credit and liquidity risks that may affect the Group's projects and their timely completions. The directors are confident that the Company has the right framework and the appropriate policies and procedures in place to mitigate the effects that the aforementioned risks might have on the business.

Disclosures of material matters

JD Capital p.l.c. has the following 3 material contracts:

- i. €4.9m loan given to JD Operations Limited. This relates to the Prospects bond obtained in 2018;
- ii. €3.6m loan granted to JD Operations Limited as working capital. Proceeds obtained by JD capital p.l.c. from bond issue in November 2022
- iii. €5m loan agreement with JD Operations Limited for the redevelopment of the Hal-Far factory. Again, proceeds obtain by JD Capital p.l.c. from the bond issue that took place in November 2022.

Company Secretary and Registered Office

During the year ended 31 December 2022 Dr Jesmond Manicaro served as company secretary and resigned from this post on 01 February 2023. On the same date Mr. Malcolm Falzon was appointed as company secretary. The Company's registered office is HHF 303 Industrial Estate, Hal Far, Birzebbugia BBG 3000, Malta.

Financial risk management

The Group is exposed to credit, liquidity, and interest rate risks. These are further analysed in Note 31 in the financial statements.

Events after the end of the reporting period

There are no events after the end of the reporting period which require mention in this report.

DIRECTORS' REPORT - continued

Going concern

As at 31 December 2022, the Group's current assets exceeded its current liabilities by €8,776,912 (2021: 2,398,389).

The directors, at the time of approving the financial statements, have determined that there is reasonable expectation that the Group and the Company have adequate resources to continue operating for the foreseeable future and for this reason, the directors have adopted the going concern basis in preparing the financial statements.

Future developments

The directors do not foresee any changes in the operating activities for the forthcoming year.

Directors

During the year ended 31 December 2022, the directors were as listed on page 3.

In accordance with the Company's Memorandum and Articles of Association, the present directors remain in office, but shall retire from office at least once every three years. However, they shall be eligible for re-election.

Statement of directors' responsibilities

The Companies Act (Cap. 386), enacted in Malta, requires the directors to prepare financial statements for each financial year which give a true and fair view of the financial position of the Company and of the Group as at year end and of their profit or loss for the year then ended.

In preparing the financial statements, the directors are required to:

- adopt the going concern basis unless it is inappropriate to presume that the Company and the Group will continue in business;
- select suitable accounting policies and apply them consistently;
- · make judgements and estimates that are reasonable and prudent;
- account for income and charges relating to the accounting period on accruals basis;
- · value separately the components of asset and liability items;
- report comparative figures corresponding to those of the preceding accounting period; and
- prepare the financial statements in accordance with generally accepted accounting principles as defined in the Companies Act (Cap. 386) and in accordance with the provision of the same Act.

JD CAPITAL PLC

Annual Report and Consolidated Financial Statements - 31 December 2022

DIRECTORS' REPORT - continued

Statement of directors' responsibilities - continued

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and of the Group and to enable them to ensure that the financial statements comply with the Companies Act (Cap. 386). This responsibility includes designing, implementing and maintaining such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The directors are also responsible for safeguarding the assets of the Company and of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Auditors

RSM Malta, Registered Auditors, have expressed their willingness to continue in office and a resolution for their reappointment will be proposed at the Annual General Meeting.

Statement by directors on the financial statements and other information included in the report

The directors declare that to the best of their knowledge:

- the financial statements give a true and fair view of the financial position and financial performance of the Group and of the Company and have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and with the Companies Act (Cap 386); and
- this report includes a fair review of the development and performance of the business and positions of the Group and of the Company, together with a description of the principal risks and uncertainties that they face.

Signed on behalf of the Board of Directors on 25 April 2023 by Josef Dimech (Director) and Stephen Muscat (Director) as per the Director's Declaration on ESEF Annual Financial Report submitted in conjunction with the Annual Financial Report.

STATEMENT OF COMPLIANCE WITH THE PRINCIPLES OF GOOD CORPORATE GOVERNANCE

JD Capital PLC ("the Company") is committed to observing the principles of transparent and responsible corporate governance. The Board considers compliance with corporate governance principles to constitute an important means of maintaining the confidence of present and future bondholders, creditors, employees, business partners and the public. Pursuant to the Capital Market Rules, the Company is hereby presenting a statement of compliance with the Code of Principles of Good Corporate Governance ("the Principles" or "the Code") for the year ended 31 December 2022, which details the extent to which the Principles have been adopted, as well as the effective measures taken by the Company to ensure compliance with these Principles. Other than as stated in Part Two below, the Company has fully implemented the Principles set out in the Code.

PART I - Compliance with the Code

Principle 1: The Board

The composition of the Board of Directors ensures that the Company is led by individuals who have the necessary skills and diversity of knowledge. The Board considers strategic issues, key projects and regularly monitors performance against delivery of the key targets of the Group's business plan.

Principle 2: Chairman and Chief Executive

The Company has no employees. Mr Josef Dimech, an Executive Director of the Company, is also the Chief Executive Officer of the Company's main subsidiary.

Principle 3: Composition of the Board

The Board of the Company who served during the year until 31 December 2022 was as follows:

Directors

Mr. Josef Dimech	Executive Director	
Mr. Jonathan Pace	Executive Director	(as from 07 September 2022)
Dr. Stanley Portelli	Non-executive Director	
Mr. Gaetano Vella	Non-executive Director	(up until 07 September 2022)
Mr. Stephen Muscat	Non-executive Director	,
Dr. Jesmond Manicaro	Non-executive Director	(as from 07 September 2022)

Company secretary

Dr. Jesmond Manicaro (up until 01 February 2023)

The Board considers that the non-executive directors are independent of management and free from any business or other relationship that could materially interfere with the exercise of their independent judgement. The members of the Board have the balance of knowledge and experience as well as a strong non-executive presence to allow continued scrutiny of performance, strategy, and governance.

STATEMENT OF COMPLIANCE WITH THE PRINCIPLES OF GOOD CORPORATE GOVERNANCE - continued

PART I - Compliance with the Code - continued

Principle 3: Composition of the Board - continued

For the purpose of the Capital Market Rules, the non-executive directors are deemed independent. Each director is mindful of maintaining independence, professionalism, and integrity in carrying out his duties and responsibilities, whilst providing judgement as a director of the Company.

The Board considers that none of the independent Directors of the Company:

- · is or has been employed in any capacity by the Company;
- · has or has had, over the past three years, a significant business relationship with the Company;
- has received or receives significant additional remuneration from the Company in addition to his director's fee:
- · has close family ties with any of the Company's executive directors or senior employees; and
- has been within the last three years an engagement partner or a member of the audit team or past external auditor of the Company.

Each of the independent Directors hereby declares that he undertakes to:

- · maintain in all circumstances his independence of analysis, decision and action;
- not seek or accept any unreasonable advantages that could be considered as compromising his independence; and
- · clearly express his opposition in the event that he finds that a decision of the Board may harm the Company.

Principle 4: The Responsibilities of the Board

The Board has responsibility for overseeing the strategic planning process and reviewing and monitoring management's execution of the corporate and group business plan. The Board delegates certain powers, authorities and discretions to the audit committee. The role and competence of such committee is further described in Principle 8 hereunder.

Principle 5: Board Meetings

The Board meets at least six times a year unless further meetings are required in accordance with the needs of the Company. The Board has a schedule of matters reserved for it to discuss.

Each Director is expected to attend all meetings of the Board and Board committees of which the Director is a member. The Board recognises that occasional meetings may need to be scheduled on short notice when the participation of a Director is not possible and that conflicts may arise from time to time that will prevent a Director from attending or participating in a regularly scheduled meeting. However, the Board expects that each Director will make every possible effort to keep such absences to a minimum.

The Board has met ten times during the year. All Directors were present on all these meetings.

STATEMENT OF COMPLIANCE WITH THE PRINCIPLES OF GOOD CORPORATE GOVERNANCE - continued

PART I - Compliance with the Code - continued

Principle 6: Information and Professional Development

The Company firmly believes in the professional development of all the members of the Board. The CEO and Senior management of the subsidiary are invited to attend Board meetings from time to time when appropriate.

Principle 7: Evaluation of the Board's Performance

The Board and each of its committees perform an annual self-evaluation of their performance through a series of questionnaires, the results of which are analysed accordingly.

Principle 8: Committees

The Board delegates certain powers, authorities and discretions to the audit committee.

Audit Committee

The audit committee's primary role is to support the main Board in terms of quality control of the Company's financial reports, its internal controls and in managing the Board's relationships with the external auditors.

The audit committee comprises of the following independent, non-executive Directors:

Mr. Stephen Muscat Chairman
Dr. Stanley Portelli Member
Dr. Jesmond Manicaro Member

In compliance with the Capital Market Rules, Mr. Stephen Muscat is the independent, non-executive Director who is competent in accounting and/or auditing matters in view of his considerable experience as a warranted Certified Public Accountant.

The audit committee met four times during the year. All members were present on all these meetings.

Principles 9 and 10: Relations with Bondholders and with the Market and Institutional Shareholders

The Company is committed to having an open and communicative relationship with its bondholders. The Board believes that bondholders should have an opportunity to send communications to the Board. Any communication from a bondholder to the Board generally or a particular Director should be in writing, signed, contain the number of bonds held in the sender's name and should be delivered to the attention of the company secretary at the registered office of the Company.

The Company issues company announcements to keep the market informed of the group developments.

JD CAPITAL PLC

Annual Report and Consolidated Financial Statements - 31 December 2022

STATEMENT OF COMPLIANCE WITH THE PRINCIPLES OF GOOD CORPORATE GOVERNANCE - continued

PART I - Compliance with the Code - continued

Principle 11: Conflicts of Interest

The Directors should always act in the best interest of the Company and its shareholders and investors. The procedures internally followed by the Board reflect how sensitive such situations, if and when they arise, are considered by the Company. In accordance with the provisions of the Articles of Association of the Company, any actual, potential or perceived conflict of interest must be immediately declared by a Director to the other members of the Board, who then (also possibly through a referral to the audit committee) decide on whether such a conflict exists. In the event that the Board perceives such interest to be conflicting with the Director's duties, the conflicted Director is required to leave the meeting and both the discussion on the matter and the vote, if any, on the matter concerned are conducted in the absence of the conflicted Director.

Principle 12: Corporate Social Responsibility

The Company remains committed to being a responsible company and making a positive contribution to society and the environment. This helps the Group develop strong relationships with its stakeholders, and create long-term value for society and its business. The Group is committed to play a leading and effective role in Malta's sustainable development whilst tangibly proving itself to be a responsible and caring entity of the community in which it operates. The Group continues to support a number of different local initiatives aimed at improving the quality of life of the local communities it supports.

PART II - Non-compliance with the Code

Principle 7: Evaluation of the Board's Performance

Even though the Board undertook a self-evaluation of its own performance, it did not appoint an ad hoc committee to carry out such evaluation. The Board believes that the outcome of such self-assessment exercise currently provides the deliverables needed.

Principle 8: Committees

The Memorandum and Articles of Association of the Company regulates the appointment of Directors.

The Board believes that the setting up of a *Nomination Committee* and a *Remuneration Committee* is currently not suited to the Company as envisaged by the spirit of the Code.

This statement of compliance with the principles of good corporate governance has been approved by the Board of Directors and signed on its behalf by:

Signed on behalf of the Board of Directors on 25 April 2023 by Josef Dimech (Director) and Stephen Muscat (Director) as per the Director's Declaration on ESEF Annual Financial Report submitted in conjunction with the Annual Financial Report.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

JD Capital PLC ("the Company") is a public limited liability company incorporated and domiciled in Malta. The Company's registered office is HHF 303 Industrial Estate, Hal Far, Birzebbugia BBG 3000, Malta.

The principal activity of the Company is to act as a holding company and to provide financing to its subsidiaries. The Company together with its subsidiaries ("the Group") is engaged in the business of providing aluminium, steel, wrought iron, large scale glass formats, and stainless-steel works, as well as the construction of steel structures. The Group also holds an investment property.

JD Holdings Limited, a limited liability company incorporated and domiciled in Malta, is the ultimate parent of the Group and of the Company. Josef Dimech, a resident in Malta, is the ultimate beneficial owner of the Group and of the Company.

2. GOING CONCERN

As at 31 December 2022, the Group's current assets exceeded its current liabilities by €10,456,388 (2021: €2,398,389). This reflects the active efforts undertaken by the directors to improve the liquidity of the Group. The directors are confident that the positive results obtained, together with the business strategy that is being implemented, will improve the liquidity of the Group. This will ensure that the Group will be able to fund its commitments as and when the need arises to enable the Group to realise its assets and discharge its liabilities in the normal course of business. On the above basis, the directors considered it appropriate to prepare the financial statements of the Company and the Group on a going concern basis.

3. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance and basis of measurement

These financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU") and comply with the requirements of the Companies Act (Cap. 386) enacted in Malta. These financial statements have been prepared under the historical cost convention, except for the investment property and industrial buildings which are carried at fair value.

Presentation and functional currencies

These financial statements are presented in Euro (€) which is also the Company's functional currency.

New or revised standards, interpretations, or amendments adopted

The Group has adopted several amendments issued by the International Accounting Standards Board ("IASB") and the IFRS Interpretations Committee and endorsed by the EU. The adoption of these new or revised standards, interpretations and amendments did not have a material impact on these financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Annual Improvements to IFRS Standards 2018-2020

IFRS 9 Financial Instruments - The amendment clarifies that in applying the '10 per cent' test to assess whether to derecognise a financial liability, an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf. The amendment is applied prospectively.

Amendments to IAS 16 Property, Plant and Equipment – Proceeds before intended use

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced before that asset is available for use, i.e. proceeds while bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Consequently, an entity recognises such sales proceeds and related costs in profit or loss. The entity measures the cost of those items in accordance with IAS 2 Inventories. The amendments also clarify the meaning of 'testing whether an asset is functioning properly'. IAS 16 now specifies this as assessing whether the technical and physical performance of the asset is such that it is capable of being used in the production or supply of goods or services, for rental to others, or for administrative purposes. If not presented separately in the statement of comprehensive income, the financial statements shall disclose the amounts of proceeds and cost included in profit or loss that relate to items produced that are not an output of the entity's ordinary activities, and which line item(s) in the statement of comprehensive income include(s) such proceeds and cost.

Amendments to IAS 37 Onerous Contracts - Cost of Fulfilling a Contract

The amendments specify that the cost of fulfilling a contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract consist of both the incremental costs of fulfilling that contract (examples would be direct labour or materials) and an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

Amendments to IFRS 3 Reference to the Conceptual Framework

The Group has adopted the amendments to IFRS 3 Business Combinations for the first time in the current year. The amendments update IFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework. They also add to IFRS 3 a requirement that, for obligations within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets, an acquirer applies IAS 37 to determine whether at the acquisition date a present obligation exists as a result of past events. For a levy that would be within the scope of IFRIC 21 Levies, the acquirer applies IFRIC 21 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date.

New or revised standards, interpretations, or amendments not yet effective

Several other new and revised standards, interpretations, or amendments, not early adopted by the Group, were in issue and endorsed by the EU, but not yet effective for the current financial period. The directors are of the opinion that the adoption of these standards, interpretations or amendments will not have a material impact on these financial statements. The most relevant changes are the below:

3. SIGNIFICANT ACCOUNTING POLICIES - continued

New or revised standards, interpretations, or amendments not yet effective - continued

Amendments to IAS 1 - Classification of Liabilities as Current or Non-current

The amendments to IAS 1 affect only the presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items. The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. The amendments are applied retrospectively for annual periods beginning on or after 1 January 2023, with early application permitted.

Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements—Disclosure of Accounting Policies

The amendments change the requirements in IAS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The supporting paragraphs in IAS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. The IASB has also developed guidance and examples to explain and demonstrate the application of the 'four-step materiality process' described in IFRS Practice Statement 2. The amendments to IAS 1 are effective for annual periods beginning on or after 1 January 2023, with earlier application permitted and are applied prospectively. The amendments to IFRS Practice Statement 2 do not contain an effective date or transition requirements.

Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Accounting Estimates

The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". The definition of a change in accounting estimates was deleted. However, the IASB retained the concept of changes in accounting estimates in the Standard with the following clarifications:

- A change in accounting estimate that results from new information or new developments is not the correction of an error.
- The effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

New or revised standards, interpretations, or amendments not yet effective - continued

Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Accounting Estimates

The IASB added two examples (Examples 4-5) to the Guidance on implementing IAS 8, which accompanies the Standard. The IASB has deleted one example (Example 3) as it could cause confusion in light of the amendments. The amendments are effective for annual periods beginning on or after 1 January 2023 to changes in accounting policies and changes in accounting estimates that occur on or after the beginning of that period, with earlier application permitted.

Amendments to IAS 12 Income Taxes – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments introduce a further exception from the initial recognition exemption. Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences. Depending on the applicable tax law, equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting nor taxable profit. For example, this may arise upon recognition of a lease liability and the corresponding right-of-use asset applying IFRS 16 at the commencement date of a lease. Following the amendments to IAS 12, an entity is required to recognise the related deferred tax asset and liability, with the recognition of any deferred tax asset being subject to the recoverability criteria in IAS 12. The amendments apply to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period an entity recognises:

- A deferred tax asset (to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised) and a deferred tax liability for all deductible and taxable temporary differences associated with:
 - Right-of-use assets and lease liabilities
 - Decommissioning, restoration and similar liabilities and the corresponding amounts recognised as part of the cost of the related asset
- The cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at that date

The amendments are effective for annual reporting periods beginning on or after 1 January 2023, with earlier application permitted. The directors of the Group anticipate that the application of these amendments may have an impact on the Company's financial statements in future periods should such transactions arise.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

New or revised standards, interpretations, or amendments not yet effective - continued

Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and

The amendments to IFRS 10 and IAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture that is accounted for using the equity method, are recognised in the parent's profit or loss only to the extent of the unrelated investors' interests in that associate or joint venture. Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognised in the former parent's profit or loss only to the extent of the unrelated investors' interests in the new associate or joint venture. The effective date of the amendments has yet to be set by the IASB; however, earlier application of the amendments is permitted. The directors of the Group anticipate that the application of these amendments may have an impact on the Group's consolidated financial statements in future periods should such transactions arise.

Basis of consolidation

The consolidated financial statements incorporate the revenues and expenses, cash flows, assets and liabilities of the Company and of its subsidiaries. Subsidiaries are companies over which the Group has control, directly or indirectly. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group.

These consolidated financial statements comprise the Company and its subsidiaries. Subsidiaries that were consolidated are listed in Note 16 to these financial statements.

Intra-group transactions, balances and unrealised gains on transactions between companies within the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred. Accounting policies of subsidiaries are consistent with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the consolidated statement of comprehensive income, consolidated statement of financial position and consolidated statement of changes in equity of the Group.

When the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary and other related component of equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss. Any interest retained is measured at fair value when control is lost.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Foreign currencies

Transactions in foreign currencies are translated to the respective functional currencies of Group companies at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies have been translated into Euro (€) at the rates of exchange ruling at the end of reporting period. All resulting differences are taken to profit or loss.

Revenue recognition

The Group recognises revenue as follows:

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Group is expected to be entitled when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised. Specifically, revenue from contracts to provide services is recognised over time as the services are rendered based on an amount that depicts the progress towards complete satisfaction of the performance obligation.

The consideration relates to the transaction price or a portion of the transaction price allocated to each performance obligation as defined in the contract with the customer.

The transaction price may include variable consideration and the time value of money. Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events.

Interest income

Interest income is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other income

Other income is recognised when it is received or when the right to receive payment is established.

Finance costs

Finance costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of that asset. All other finance costs are recognised in profit or loss in the period in which they are incurred.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Tax

The tax charge/(credit) in the profit or loss normally comprises current and deferred tax.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the reporting period, and any adjustments to tax payable in respect of previous years.

Deferred income tax is provided using the liability method, for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, based on tax rates that have been enacted or substantively enacted at the end of the reporting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the assets can be utilised and/or sufficient taxable temporary differences are available. Deferred tax assets are reduced to the extent that is no longer probable that the related tax benefit will be realised.

Intangible asset

An intangible asset acquired as part of a business combination, other than goodwill, is initially measured at fair value at the date of the acquisition. An intangible asset acquired separately is initially recognised at cost. An indefinite life intangible asset is not amortised and is subsequently measured at cost less any impairment. A finite life intangible asset is subsequently measured at cost less amortisation and any impairment. On derecognition, gains or losses are recognised in profit or loss as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Intellectual property

Intellectual property has an indefinite useful life.

Investment property

Investment property, which is property held to earn rentals and/or for capital appreciation, including property under construction for such purposes, is initially measured at cost, including transaction costs.

Subsequent to initial recognition, an investment property is carried at fair value, and unlike operational properties, it is not depreciated. A change in the fair value of an investment property is recognised in profit or loss in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any difference between the net disposal proceeds and the carrying amount of the asset is included in profit or loss in the period in which the property is derecognised.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Investment property - continued

Transfers to and from investment properties to property, plant and equipment are determined by a change in use of owner-occupation. The fair value on the date of change of use from investment properties to property, plant and equipment is used as deemed cost for the subsequent accounting. The existing carrying amount of property, plant and equipment is used for the subsequent accounting cost of investment properties on the date of change of use.

Property, plant and equipment

An item of property, plant and equipment is initially measured at cost. Cost includes the purchase prices and other expenditures directly attributable to bringing the asset to the location and condition for its intended use. Subsequent expenditure relating to the asset is capitalised as additional cost when it results in an increase in the future economic benefits to be obtained from the asset, in excess of the originally assessed standard of performance, and will flow back to the Group. All other subsequent expenditure is recognised in profit or loss.

After initial recognition an item of property, plant and equipment, other than industrial buildings, is carried at cost less accumulated depreciation and impairment losses, if any.

After initial recognition, industrial buildings are carried at a revalued amount, being its fair value at the date of revaluation less subsequent depreciation and impairment, provided that fair value can be measured reliably.

Depreciation is calculated on a straight-line basis to write off the cost of each item of property, plant and equipment over their expected useful lives as follows:

	%
Industrial building	1.5
Machinery	20
Office furniture	10
Motor vehicles	20
Electronic equipment	25
Electric hand tools	20

The residual values, estimated useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Revaluation of industrial buildings is performed frequently if market factors indicate a material change in fair value. Increases in carrying amounts arising from revaluation are recognised in other comprehensive income and accumulated under a revaluation reserve in equity, unless they offset previous decreases in the carrying amounts of the same asset, in which case, they are recognised in profit or loss. Decreases in carrying amounts that offset previous increases of the same asset are recognised against the revaluation reserve. All other decreases in carrying amounts are recognised as a loss in the statement of comprehensive income.

Industrial buildings and plant and equipment under lease are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Property, plant and equipment - continued

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Group. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

Leases

Right-of-use asset

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Investment in subsidiaries

Subsidiaries are companies over which the Company has control, directly or indirectly. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Investment in subsidiaries - continued

Investment in subsidiaries in the statement of financial position of the Company are stated at cost less any accumulated impairment losses.

Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at the end of reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The recoverable amount is calculated as the present value of the expected future cash flows, discounted at the original effective interest rate inherent in the assets. The recoverable amount of the assets is the greater of their net selling price and value in use.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in profit or loss.

In respect of the Group's assets, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, if no impairment loss had been recognised.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred. Financial liabilities are derecognised when they are extinguished, discharged, cancelled or expired.

Financial assets

Financial assets are classified at initial recognition in accordance with how they are subsequently measured, as follows:

- · financial assets at amortised cost;
- · financial assets at fair value through other comprehensive income; and
- financial assets at fair value through profit or loss.

The Group and the Company's financial assets are mainly financial assets at amortised cost.

Financial assets at amortised cost

Financial assets at amortised cost are financial assets that are held within the business model whose objective is to collect contractual cash flows ("hold to collect") and the contractual terms give rise to cash flows that are solely payments of principal and interest.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Financial instruments - continued

Financial assets at amortised cost - continued

On initial recognition, financial assets at amortised cost are recognised at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Discounting is omitted where the effect of discounting is immaterial.

Financial assets at amortised cost are subsequently carried at amortised cost using the effective interest method less impairment losses, if any. Gain or losses are recognised in profit or loss when the asset is derecognised, modified, or impaired.

The Group and the Company's financial assets under this classification include cash and cash equivalents, contract assets, trade and other receivables and loans to related companies.

Impairment of financial assets

The Group and the Company recognises an allowance for expected credit losses (ECLs) on financial assets that are measured at amortised cost. Equity instruments are not subject to impairment assessment.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group and the Company expect to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (lifetime ECL).

The Group and the Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Group and the Company is unlikely to receive the outstanding contractual amounts in full. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows and usually occurs when past due for more than one year and not subject to enforcement activity.

For trade receivables and contract assets, the Company applies a simplified approach to measuring ECLs which recognises lifetime ECLs. The ECLs on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Financial instruments - continued

Financial liabilities

Financial liabilities are classified at initial recognition in accordance with how they are subsequently measured, as follows:

- · financial liabilities at amortised cost; and
- financial liabilities at fair value through profit or loss.

The Group and the Company's financial liabilities are mainly financial liabilities at amortised cost.

Financial liabilities at amortised cost

Financial liabilities at amortised cost are initially recognised at fair value, net of transaction costs and are subsequently measured at amortised cost using the effective interest method. All interest-related charges under the interest amortisation process are recognised in profit or loss.

Financial liabilities at amortised cost - continued

On derecognition, the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, are recognised in profit or loss.

Financial liabilities under this category include borrowings, contract liabilities and trade and other payables.

Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Contract assets

Contract assets are recognised when the Group has transferred goods or services to the customer but where the Group is yet to establish an unconditional right to consideration. Contract assets are treated as financial assets for impairment purposes.

Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and subject to insignificant risk of changes in value. Cash and cash equivalents are carried at cost.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash in hand, cash at banks and bank overdraft.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

Borrowings

Borrowings are initially recognised at fair value less transaction costs and are subsequently measured at amortised cost using the effective interest method.

Contract liabilities

Contract liabilities represent the Group's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the Group recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the Group has satisfied its performance obligation in a contract with the customer.

Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, is used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Earnings per share

Basic earnings per share is calculated by dividing the profit for the period attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period.

4. SIGNIFICANT JUDGEMENTS AND CRITICAL ESTIMATION UNCERTAINTIES

The preparation of these financial statements in accordance with IFRS as adopted by the EU requires the directors to make judgements, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses in the financial statements. These judgements, estimates and assumptions, which are continually evaluated, are based on historical experience and on other various factors, including expectations of future events, that the directors believed to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements and estimates that are significant to these financial statements are discussed below.

Revenue from contracts with customers

Management determines revenue through the estimation of the stage of completion and expected outcome of the project. Given this estimation process, it is possible that changes in the future conditions could require a change in the recognised amount of revenue.

Expected credit losses

The Group uses a provision matrix to calculate ECLs for trade receivables and contract assets. The provision rates are based on days past due for various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit losses experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year, leading to a potential increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

Fair value of investment property and industrial buildings

Investment property and industrial buildings are revalued to fair value by using either internal valuations or valuations prepared by external independent valuers. These valuations are based upon assumptions including future rental value, anticipated property costs, future development costs and the appropriate discount rate. Reference is also made to market evidence of transaction prices for similar properties. These estimates are subjective in nature and involve uncertainties and matters of significant judgements and, therefore, cannot be determined with precision.

4. SIGNIFICANT JUDGEMENTS AND CRITICAL ESTIMATION UNCERTAINTIES - continued

Incremental borrowing rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the Group estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

Impairment of non-financial assets

The Group assesses impairment of non-financial assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions. The directors assessed that the property, plant and equipment, intangible assets and inventories of the Group are not impaired as at 31 December 2022 and 2021.

Ukraine war

During the year, a war between Ukraine and Russia was registered. The Group has not made any sales overseas and it does not have any contracts for raw materials in Ukraine or Russia. Furthermore, none of the Group's clients, which are Malta-based have suspended their projects or cancelled orders. Meanwhile, management has assessed that the war has resulted in an increase in raw material prices all around Europe, owever this has not left any outstanding impact on the financial statements nor any outstanding uncertainties with respect to events or conditions which may impact the Group unfavourable as at the reporting period or subsequently as a result of a prolonged war.

5. REVENUE

	Group

Interest on late payments	44,568	22,750	458	=
Bank interest	168	-	168	
Interest on hire of equipment	5,801	-	-	-
	723,655	583,652	292,936	250,000

11. OTHER LOSSES

During the year-ended 31 December 2022, the Group disposed of some vehicles resulting in a loss on disposal amounting to €1,721 (2021: €11,700).

12. TAX

Tax expense for the period is comprised of the following:

Group)	Compan	У
2022	2021	2022	2021
€	€	€	€
153,966	384,686	-	20,157
(199)	46,272	(199)	46,272
45,442	(122,239)	-	-
199,209	308,719	(199)	66,429
	2022 € 153,966 (199) 45,442	€ € 153,966 384,686 (199) 46,272 45,442 (122,239)	2022 2021 2022 € € € 153,966 384,686 - (199) 46,272 (199) 45,442 (122,239) -

The tax on the profits/(loss) at statutory rate of 35% reconciles to the tax expense/(credit) for the period as follows:

	Group		Company	
	2022	2021	2022	2021
	€	€	€	€
Profit/(loss) before tax	417,526	468,117	(237,189)	(3,649)
Tax at statutory rate of 35% Adjustments for:	146,134	163,841	(83,016)	(1,277)
- non-taxable income	(22,905)	(72,026)	(8,330)	-
- non-deductible expenses	488,650	428,180	91,346	25,252
 adjustment of prior period current tax 	(199)	46,272	(199)	46,272
- absorbed capital allowances	(132,543)	(131,491)	-	:
Other temporary differences	-	(122, 239)		
Other differences	17,463	(3,818)	:=:	(3,818)
Non-taxable gain on fair value	(260,430)			
	236,170	308,719	(199)	66,429

12. TAX - continued

The movement in deferred tax for the year is analysed as follows:

	Group		Company	
	2022	2021	2022	2021
	€	€	€	€
At the beginning of year	(1,592,788)	(355,027)	-	
Credited to profit or loss	(45,442)	122,239	-	-
Revaluation Reserve		(1,360,000)		-
	(1,638,230)	(1,592,788)	•	-

Deferred income taxes are calculated on all temporary differences under the liability method using a principal rate of 35%. The deferred tax credit for the year represents:

	Group		Company	
	2022	2021	2022	2021
	€	€	€	€
Tax effect of temporary differences arising from: - revaluation gain	(79,520)			
- Expected credit losses	14,575	104,098	-	-
 Accrued interest receivable 	19,503	18,141	=	
	(45,442)	122,239	-	

Payments amounting to €189,931 were made after year-end to partially settle the amount outstanding of income tax payable as at year-end.

14. INVESTMENT PROPERTY

	Grou	ıp
	2022	2021
	€	€
Fair value	5,494,000	4,522,715
Movements in investment property during the period were as follows:		
	2022	2021
	€	€
Opening balance	4,522,715	4,522,184
Additions from subsequent expenditures	-	531
Revaluation gain	971,285	-
Ending balance	5,494,000	4,522,715

The Group's investment property consists of land in Birkirkara, Malta. The fair value of the investment property as at 31 December 2022 amounts to €5,494,000 (2021: €4,522,715). The carrying amount of the investment property which would have been included in the financial statements had it been carried at cost is €4,022,715 (2021: €4,022,715).

The fair value of the investment property was appraised by an independent architect and was based upon assumptions including future rental value, anticipated property costs, future developments and an appropriate discount rate. The valuation has been based on proprietary databases of prices of transactions for properties of similar nature, location and condition.

The valuation was carried out by a qualified independent architect with the last professional valuation carried out on 01 September 2022.

The investment property is serving as a security by means of a hypothec for banking facilities of a related company.

Refer to Note 33 to these financial statements for the fair value measurement.

15. INTANGIBLE ASSET

The Group's intangible asset pertains to the intellectual property right to use the business brand, logo, and tradename 'JSDimech'. The directors are of the opinion that this has an indefinite useful life.

16. INVESTMENT IN SUBSIDIARIES

The following are the subsidiaries of the Group with the corresponding shareholding percentage of the Group and the amount of the investment carried in the Company's statement of financial position:

		_	Compa	any

- i. During the year, the Company issued a new tranche of bonds amounting to €14,000,000. The bonds will mature on 25 November 2032 with annual interest payments every 25th of November until maturity. The amount presented is net of unamortised bond issue costs of €374,502 (2021: €83,360). Interest expense on the bonds for the year are as disclosed in Note 10 to these financial statements. The fair value of the bonds for every €100 bond as at 31 December 2022 was €99.99 (2021: €100). A bond exchange offer was accepted by all prior bondholders whereby the 50,000 securities with a nominal value of €100 were exchanged to 50,000 securities with a nominal value of €100 in the new tranche. Additionally a premium of €2 per bond was paid by the Company amounting to €100,000.
- ii. Bank loan I pertains to a loan with a local bank under the Malta Development Bank's COVID-19 Assist Program. The loan shall bear interest at a fixed rate of 2.5% per annum for the first two years from the take up of the loan and thereafter at the rate of the aggregate of the margin of 2.75% per annum and the three-month EURIBOR. The loan is repayable over a period of six years inclusive of a 12-month moratorium on the principal and six-months on interest. Following the moratorum period, the loan shall be repayable in 60 monthly instalments of €12,500. The loan is secured by a first general hypothec over the Company's assets and guarantee by the ultimate shareholder.
- iii. Bank loan II is a loan with another local bank taken as well under the Malta Development Bank's COVID-19 Assist Program and is fully utilised as at year-end. The loan shall bear interest at the rate of the aggregate of the margin of 3.15% per annum and the three-month EURIBOR. The loan is repayable in monthly instalments of €50,917 beginning December 2020 until May 2024. The loan is secured by a first special hypothec for the amount of €200,000 over the Company assets.
- iv. The revolving facility bears interest at the rate of 5% per annum plus the 12-month EURIBOR and is repayable in accordance with the term sheet as agreed with the bank for each drawdown. The revolving facility is of €6,000,000.
- v. The amounts due to subsidiaries and related company are unsecured, interest-free, and repayable on demand.

25. LEASE LIABILITIES

	Group		
	2022	2021	
	€	€	
Due after more than five years	9,859,203	10,082,085

The outstanding amounts arising from transactions with related parties and the related terms and conditions are disclosed in Notes 17 and 24 to these financial statements.

31. FINANCIAL RISK MANAGEMENT

At year end, the Group's main financial assets on the statement of financial position is comprised of cash at banks, trade and other receivables (excluding prepayments and accrued income), and other financial assets at amortised cost. There were no off-balance sheet financial assets.

At year end, the Group's main financial liabilities on the statement of financial position is comprised of trade and other payables (excluding accruals), and borrowings. There were no off-balance sheet financial liabilities.

Exposure to credit, liquidity, and interest rate risks arise from the Group's activities.

31. FINANCIAL RISK MANAGEMENT - continued

Timing of cash flows

The presentation of the financial assets and liabilities listed above under the current and non-current headings within the statements of financial position is intended to indicate the timing in which cash flows will arise.

Capital risk management

The Group manages its capital to ensure that it will be able to continue as a going concern and comply with the requirements of the prospectus issued in relation to the bonds while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The capital structure of the Group consists of equity attributable to equity holders comprising issued share capital, reserves, and borrowings as disclosed in Notes 21, 22, 23 and 24 to these financial statements and in the statements of changes in equity.

Credit risk

Credit risk refers to the risk that a counterparty in the financial assets will default on its contractual obligations resulting in financial loss to the Group or the Company. The Group obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The Group does not hold any collateral.

The Group has adopted a lifetime expected loss allowance in estimating expected credit losses to trade receivables and contract assets through the use of a provision matrix using fixed rates of credit loss provisioning. These provisions are considered representative across all customers of the Group based on recent sales experience, historical collection rates and forward-looking information that is available. Expected credit losses recognised on trade receivables and contract assets amounted to €482,512 (2021: €539.763).

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indicators of this include the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for a period greater than one year.

As at 31 December 2022, the Group has a credit risk concentration with the ultimate parent company and a third party which accounted for 8% and 0% (2021: 14% and 12%) of the Group's total financial assets, respectively. The Group recognised expected credit losses on these financial assets as at 31 December 2022 amounting to €3,465 and €41 (2021: €3,456 and €4,585), respectively.

As at 31 December 2022, the Company has a credit risk concentration with a subsidiary which accounted for 52% (2021: 99%) of the Company's total financial assets. Expected credit losses recognised for this balance as at 31 December 2022 amounted to €26,350 (2021: €15,190).

The credit risk relating to cash at bank is considered to be low in view of management's policy of placing it with reputable financial institutions.

31. FINANCIAL RISK MANAGEMENT - continued

Credit risk related to trade receivables are as follows:

	Gross		Carrying
	amount	ECL	amount
	€	€	€
31 December 2022			
Current	3,918,339	(10,602)	3,907,737

More than 1 year	29,777	(13,681)	16,096
	6,946,622	(301,877)	6,644,745

Liquidity risk

The Group is exposed to liquidity risk in relation to meeting future obligations associated with its financial liabilities. Prudent liquidity risk management includes maintaining sufficient liquid assets and available borrowing facilities to be able to pay debts as and when they become due and payable.

The directors manage liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

The following table details the undiscounted contractual cash flows arising from the Group's financial liabilities:

		Group	
	Within	Between	More than

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's interest rate risk arises from the bank overdraft and revolving facility which are subject to varying interest rates according to revisions to the bank's base rate. Interest rate on the bonds payable is fixed while the other financial liabilities are interest-free, thus, interest rate risk does not apply to these financial instruments.

33. FAIR VALUE MEASUREMENT

The Group measures fair values using the fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date:

Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly observable from market data; and

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and unobservable inputs have a significant effect on the instruments valuation. This category includes instruments that are valued based on quoted market prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Financial instruments

The carrying amounts of cash at banks, trade and other receivables (excluding prepayments), other financial assets at amortised cost, trade and other payables (excluding accruals), and other financial liabilities at amortised cost are carried at their present values using the effective interest method (where discounting is material) which is a reasonable approximation of their fair values as at period end.

Investment property

The fair value of the investment property, appraised by an independent valuer, was determined based on level 3 inputs. These level 3 inputs include future rental value, anticipated property costs, future developments and an appropriate discount rate.

Industrial buildings

The fair value of the industrial buildings, appraised by an independent valuer, was determined based on level 3 inputs. These level 3 inputs include future rental value, anticipated property costs, future developments and an appropriate discount rate.

INDEPENDENT AUDITORS' REPORT

To the Shareholders of JD Capital PLC

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of JD Capital PLC ("the Company") and the consolidated financial statements of the Company and its subsidiaries (together, "the Group"), set out on pages 12 - 47, which comprise the statements of financial position as at 31 December 2022, the statements of comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements give a true and fair view of the financial position of the Company and of the Group as at 31 December 2022, and of their financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), and have been properly prepared in accordance with the requirements of the Companies Act (Cap. 386).

Our report is consistent with the additional report to the audit committee in accordance with the provision of Article 11 of the EU Regulations No. 537/2014 on specific requirements on statutory audits of public-interest entities.

Basis for Opinion

We conducted our audits in accordance with International Standards on Auditing ("ISA"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company and the Group in accordance with the ethical requirements of both the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) and the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap. 281) in Malta that are relevant to our audits of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code and the Code of Ethics for Warrant Holders in Malta. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Report on the Audit of the Financial Statements - continued

Basis for Opinion - continued

To the best of our knowledge and belief, we declare that non-audit services that we have provided to the Group are in accordance with the applicable laws and regulations in Malta and that we have not provided any non-audit services that are prohibited under Article 18A of the Accountancy Profession Act (Cap. 281).

The non-audit services that we have provided to the Group during the year are disclosed in Note 7 in the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue from contracts with customers

Revenue is determined through the estimation of the stage of completion and the expected outcome of the project. Given this estimation process, it is possible that changes in future conditions could require a change in the recognised amount of revenue.

Our audit procedures included an analysis of contracts, bills of quantities prepared by third parties and/or project supervisors, project costs and budgets and/or any other relevant assessments as provided by management.

Valuation of investment property

The Group's investment property pertaining to a land in Birkirkara is carried at fair value of €5,494,000. Valuation of this property is inherently subjected to, among other factors, the individual nature of the property, its location, and the expected future revenues to be derived from the property.

The existence of significant estimates used to arrive at the fair value of the property, could result in a potential material misstatement by virtue of the inherent uncertainties underlying the estimations. Consequently, specific audit focus and attention was given to this area. The valuation of the property was performed by management on the basis of valuation reports prepared by an independent qualified architect.

Our audit procedures included, amongst others, the following:

- · Considering the objectivity, independence, competence and capabilities of the external valuer.
- Assessing the valuation inputs and assumptions used on which the forecasts were made.
- · Testing the mathematical accuracy of the calculations derived from the forecast model.
- · Assessing the key valuation inputs and assumptions used on which the forecasts were made.

Report on the Audit of the Financial Statements - continued

Key Audit Matters - continued

Valuation of property, plant and equipment

The Group's industrial buildings carried at fair value relate to the emphyteusis on the factory in Hal Far. This had a carrying amount of €19,335,671 as at year-end. Valuation of this property is inherently subjected to, among other factors, the individual nature of the property, its location, and the expected future revenues to be derived from the property.

The existence of significant estimates used to arrive at the fair value of the property, could result in a potential material misstatement by virtue of the inherent uncertainties underlying the estimations. Consequently, specific audit focus and attention was given to this area. The valuation of the property was performed by management on the basis of valuation reports prepared by an independent qualified architect.

Our audit procedures included, amongst others, the following:

- · Considering the objectivity, independence, competence and capabilities of the external valuer.
- Reviewing the methodology used by the external valuer and by management to estimate the fair value of the industrial buildings.
- Testing the mathematical accuracy of the calculations derived from the forecast model.
- · Assessing the key valuation inputs and assumptions used on which the forecasts were made.

Assessment of the recoverability of receivables

We identified the recoverability of the accounts receivable as a key audit matter due to the significant degree of judgements made by management in assessing the impairment of the receivables and consequently, in determining the extent of allowance for expected credit losses ("ECL").

As at 31 December 2022, the Group had a loan receivable and amounts due from the parent company totalling to €1,712,531, amounts due from a related company of €5,331,980, other receivables from third party amounting to €6,438,239, and trade receivables and contract assets totalling €9,985,368.

Our audit procedures included, amongst others, the following:

- · Reviewing the terms surrounding the agreements.
- Assessing the financial soundness of the third party and the parent company taking into account their business plans and strategies.
- Understanding and evaluating the workings and assumptions underlying the assessments for the loss allowances under IFRS 9.
- Based on evidence and explanations obtained, we concur with management's view with respect to the recoverability of the balances.

Other Information

The directors are responsible for the other information. The other information comprises the general information, the directors' report and the statement of compliance with the principles of good corporate governance. Our opinion on the financial statements does not cover the other information, except as explicitly stated under the Report on Other Legal and Regulatory Requirements.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we have obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Under Article 179(3) of the Companies Act (Cap. 386), we are required to consider whether the information given in the directors' report is compliant with the disclosure requirements of Article 177 of the same Act.

Based on the work we have performed, in our opinion:

- the directors' report has been prepared in accordance with the Companies Act (Cap. 386);
- the information given in the directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- in light of our knowledge and understanding of the Company and the Group, and their environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

Responsibilities of the Directors and Those Charged with Governance for the Financial Statements

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with IFRS as adopted by the EU and the requirements of the Companies Act (Cap. 386), and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company and/or the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process of the Group and the Company.

Report on the Audit of the Financial Statements - continued

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not
 detecting a material misstatement resulting from fraud is higher than for one resulting from error, as
 fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of
 internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Company and the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company and the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company and/or the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.
 We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Report on the Audit of the Financial Statements - continued

Auditors' Responsibilities for the Audit of the Financial Statements - continued

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Report on the Statement of Compliance with the Principles of Good Corporate Governance

The Capital Market Rules issued by the Malta Financial Services Authority requires the directors to prepare and include in their Annual Report a Statement of Compliance providing explanation of the extent to which they have adopted the Code of Principles of Good Governance and the effective measures that they have taken to ensure compliance throughout the year with those principles.

The Capital Market Rules also require the auditors to report on the Statement of Compliance prepared by the directors.

We read the Statement of Compliance and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements included in the Annual Report. Our responsibilities do not extend to considering whether this statement is consistent with any other information included in the Annual Report.

We are not required to, and we do not, consider whether the Board's statements on internal control included in the Statement of Compliance cover all risks and controls, or form an opinion on the effectiveness of the Company's corporate governance procedures or its risk and control procedures.

In our opinion, the Statement of Compliance with the Principles of Good Corporate Governance has been properly prepared in accordance with the requirements of the Capital Market Rules issued by the Malta Financial Services Authority.

Report on Other Legal and Regulatory Requirements - continued

Report on compliance with the requirements of the European Single Electronic Format Regulatory Technical Standard (the "ESEF RTS"), by reference to Capital Markets Rule 5.55.6

We have undertaken a reasonable assurance engagement in accordance with the requirements of Directive 6 issued by the Accountancy Board in terms of the Accountancy Profession Act (Cap. 281) - the Accountancy Profession (European Single Electronic Format) Assurance Directive (the "ESEF Directive 6") on the annual financial report of JD Capital PLC for the year ended 31 December 2022, entirely prepared in a single electronic reporting format.

Responsibilities of the directors

The directors are responsible for the preparation of the annual financial report, including the consolidated financial statements and the relevant mark-up requirements therein, by reference to Capital Markets Rule 5.56A, in accordance with the requirements of the ESEF RTS.

Auditors' responsibilities

Our responsibility is to obtain reasonable assurance about whether the annual financial report, including the consolidated financial statements and the relevant electronic tagging therein comply in all material respects with the ESEF RTS based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with the requirements of ESEF Directive 6.

Our procedures included:

- obtaining an understanding of the entity's financial reporting process, including the preparation of the annual financial report, in accordance with the requirements of the ESEF RTS.
- obtaining the annual financial report and performing validations to determine whether the annual financial report has been prepared in accordance with the requirements of the technical specifications of the ESEF RTS.
- examining the information in the annual financial report to determine whether all the required taggings therein have been applied and whether, in all material respects, they are in accordance with the requirements of the ESEF RTS.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the annual financial report for the year ended 31 December 2022 has been prepared, in all material respects, in accordance with the requirements of the ESEF RTS.

Report on Other Legal and Regulatory Requirements - continued

Other Matters on which we are Required to Report by Exception

Under the Companies Act (Cap. 386), we are required to report to you if in our opinion:

- · proper accounting records have not been kept; or
- · returns have not been received from branches we have not visited; or
- · the financial statements are not in agreement with the accounting records and returns; or
- we were unable to obtain all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

We also have responsibilities under the Capital Market Rules to review the statement made by the directors that the business is a going concern together with supporting assumptions or qualifications as necessary.

We have nothing to report in this regard.

Appointment

We were first appointed to act as statutory auditors of the Company by the shareholders of the Company on 18 June 2018 for the period ended 31 December 2018, and we were subsequently reappointed by the shareholders at the Company's general meeting for the financial years thereafter. The period of uninterrupted engagement as statutory auditor of the Company is five financial periods.
