(1) **Dividend Cover**: the number of times that a company's earnings per share cover the net dividend payment.

(2) **Gross Dividend Yield**: this shows the return offered to the investor before income tax is deducted. The dividend yield is calculated by expressing the gross dividend as a percentage of the current market price.

(3) **Net Asset Value per Share**: The NAV per Share is calculated by dividing the value of shareholders' funds with the number of shares in issue.

(4) **Earnings per Share**: this is arrived at by dividing the company's profit after tax (in the latest 12-month period) by the number of shares in issue.

(5) **Price/Earnings Ratio**: this is calculated by dividing the current market price by the company's earnings per share achieved in its latest 12-month period.

Past performance is not a guide to future returns. The investments mentioned above may not be suitable for all investors and professional advice should be sought if in doubt.
